

Little Helper :)

// Create a new entry in a new hash table

```
neuesElement = new node();  
neuesElement ->next = NULL;
```

```
ptr = root = neuesElement;
```

```
node *next = nullptr;
```

```
neuesElement = nullptr;
```

```
neuesElement = new node();
```

```
root = neuesElement;
```

// Adding a new link

```
neuesElement = new node();
```

```
neuesElement ->next = NULL;
```

```
ptr->next = neuesElement;
```

```
ptr = neuesElement;
```

```
neuesElement = new node();
```

```
node *next = neuesElement;
```

```
ptr->next = neuesElement;
```

```
ptr = neuesElement;
```
